Intro_01	This course, "Mastering Nonverbal Communication," teaches the intricacies of using body language, facial expressions, and proxemics to read and influence others. Nonverbal communication is a crucial aspect of daily communication that can improve relationships and convey thoughts and feelings. Throughout the course, topics such as types of body language, microexpressions, and cultural differences will be explored. By the end of the course, students will have a comprehensive understanding of nonverbal communication and the ability to use it to enhance personal and professional interactions. Click "START" to begin.

L1_01

Nonverbal communication means conveying information through means other than spoken or written language. This can include body language, facial expressions, eye contact, tone of voice, and physical distance.

L1_02

Nonverbal communication can also include clothing, hairstyles, and other aspects of appearance. Nonverbal communication can be conscious or unconscious, and it can be intentional or unintentional. Nonverbal cues can help reinforce or contradict verbal messages and convey meaning on their own.
